Jasmine Latendresse(40011419) and Airi Chow(40003396) SOEN 387 - A3 Fall 2019

#### Assignment 3

#### Part E: The System Model

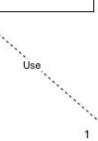

#### Data Access Layer:

### [Class Diagram]

Data Access Layer (DAL) - System Class Diagram

#### BookRepositoryDatabase

- database\_instance: RepositoryDatabase
- connection: Connection - statement: Statement
- result\_set: ResultSetuser: String
- user: String - pass: String
- + getInstance(): RepositoryDatabase
- + createStatement(): Statement
- + executeQuery(String): ResultSet
- + executeUpdate(String): int
- + cleanup(): void

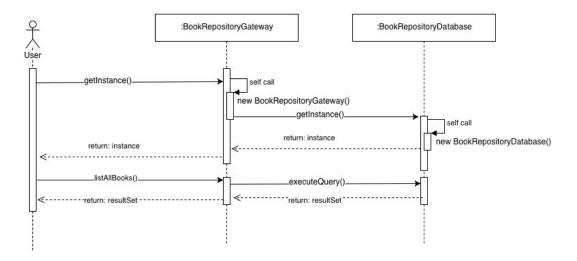

#### BookRepositoryGateway

- repositoryDatabaseConnection: BookRepositoryDatabase
- instance: BookRepositoryGateway
- + getInstance(): BookRepositoryGateway
- + listAllBooks(): ResultSet
- + getBookInfo(int): ResultSet
- + getBookInfo(String): ResultSet
- + addNewBook(String, String, String, String, String, byte[], String): void
- + updateBookInfo(int, String, String, byte[], String): void
- + deleteBook(int): void
- + deleteAllBooks(): void
- + createBookTable(): void
- + dropBookTable(): void
